Basis of Preparation of Interim Consolidated Financial Statements

The interim consolidated statements of financial position of Global Ferronickel Holdings, Inc. and Subsidiaries (the Group) as at March 31, 2018 and December 31, 2017, and the related consolidated statements of comprehensive income, changes in equity and cash flows for the periods ended March 31, 2018 and 2017 were prepared in accordance with generally accepted accounting principles in the Philippines. All significant inter-company balances and transactions have been eliminated in the consolidated financial statements.

The accounting principles followed in the preparation of the Group's most recent annual consolidated financial statements were similarly applied in the preparation of the interim consolidated financial statements. There were no significant changes in the Group's accounting policies, practices and methods of estimates from the Group's last annual consolidated financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Statement of Financial Condition

As at March 31, 2018, total assets of the Group stood at ₱8,577.0 million, a decrease of ₱463.9 million or 5.1%, from ₱9,040.9 million as at December 31, 2017. The decrease was due to the net effect of the decrease in current assets by ₱513.6 million or 13.9% and increase in noncurrent assets by ₱49.7 million or 0.9%. The decrease in current assets was mainly attributable to the decrease in cash by ₱356.1 million for the operating expenses of the Group for the first quarter and decrease in trade and other receivables by ₱258.4 million due to the full collection of 2017 shipments in the first quarter. This was partially offset by the increase in inventories by ₱80.6 million attributable to the production costs incurred in the first quarter in preparation for the 2018 mining season. The net decrease in noncurrent assets was mainly due to the following: (a) decrease in property and equipment by ₱53.8 million due to the depreciation and depletion during period; (b) increase in net deferred tax assets by ₱41.6 million mainly attributable to the net loss carryover (NOLCO) for the first quarter; and (c) increase in other noncurrent assets by ₱55.9 million attributable to pension asset established by the Group during the first quarter and increase in advances to suppliers.

Total liabilities of the Group stood at ₱2,406.3 million as at March 31, 2018, a decrease of ₱230.3 million or 8.7%, from ₱2,636.6 million as at December 31, 2017. The decrease was mainly due to the decrease in trade and other payables by ₱273.7 million from ₱577.1 million to ₱303.4 million as a result of settlement of obligations with the suppliers/contractors during the first quarter. This was partially offset by the increase in bank loans mainly due to the restatement as of reporting period resulting to foreign exchange loss.

Results of Operations

The Group's operational Surigao mine performs nickel ore production and shipment during the dry months of each year between April to October, and hence the net loss of ₱164.8 million for the quarter ended March 31, 2018 represents the recurring general and administrative expenses of the Group.

Sale of Ore

In the first quarter of 2018, there was no reported income because there was no shipment.

During the first quarter of 2018, Platinum Group Metals Corporation (PGMC), a subsidiary, has signed supply contracts with Baosteel Resources International Co., Ltd. and Guangdong Century Tsingshan Nickel Industry Company Limited for the delivery of 3.5 million wet metric tonnes (WMT) of its mining production which is equivalent to about fifty-eight percent (58.3%) of its target of 6.0 million WMT shipment volume for 2018.

General and Administrative
General and administrative expenses were ₱173.8 million in the first three months of 2018 compared to ₱121.6 million in the first quarter of 2017, an increase of ₱52.2 million, or 42.9%. The increase was mainly due to increase in taxes and licenses amounted to ₱28.0 million attributable to the first quarterly installment payment of local business tax made to the municipality of Claver amounted to ₱18.0 million while payment in the prior year was initially made after the first quarter; and payment of DST amounted to ₱6.0 million in relation to PGMC's, a subsidiary, increase of authorized capital stock in the last quarter of 2017. In addition, personnel costs increased by ₱9.6 million due to the bonus given to employees this quarter in relation to its 2017 performance while bonus for the 2016 performance was given in the last quarter of 2016, salary adjustments to eligible employees and minimum salary wage increase effective February 14, 2018.

Other Charges - net
Net other charges amounted to ₱18.2 million in the first three months of 2018 compared to ₱7.1 million in the first three months of 2017, an increase of ₱11.1 million, or 156.3%. The difference pertains mainly to unrealized foreign exchange loss during the period as a result of rebooking of USD denominated loan and payables at conversion rate of ₱52.16/USD1 as of March 31, 2018 as against ₱50.16/USD1 as of March 31, 2017.

Total Comprehensive Income – net of tax

Cumulative Translation Adjustment
The Group had recognized cumulative translation adjustment amounting to ₱11.4 million and ₱27.9 million for the period ended March 31, 2018 and 2017, respectively, which pertained to the exchange differences arising on the translation of a subsidiary's functional currency to the presentation currency of the Parent Company.

Statement of Cash Flows

The net cash flows used in operating activities resulted to ₱222.4 million for the first quarter ended March 31, 2018 compared to cash flows from operating activities of ₱71.7 million of the same period last year. Basically, the decrease in trade and other receivables pertain to the full collection of the 2017 shipments during the quarter. In addition, inventories increased as at March 31, 2018 was due to the cost incurred related to operations in preparation for the 2018 mining season. Moreover, prepayments and other current assets increased due to advanced payments of taxes and licenses related to the April 2018 shipments that will be realized within the second quarter. Also, trade and other payables decreased due to settlement of obligations during the first quarter. Net cash flows used in investing activities for the three months ended March 31, 2018 and 2017 amounted to ₱154.9 million and ₱273.6 million, respectively. For the three months ended March 31, 2018 and 2017, the net cash flows derived from (used in) financing activities amounted to (₱0.8 million) and ₱11.6 million, respectively.

Material Off-balance Sheet Transactions

The Group is not aware of any material off-balance sheet transaction, arrangement, obligation (including contingent obligation), and other relationship of the Group with unconsolidated entities or other persons created during the reported period other than those discussed in this report and in disclosures under Form 17-C.

Material Commitments for Capital Expenditures

The Group does not have any outstanding commitment for capital expenditures as at March 31, 2018.

Known Trends, Events and Uncertainties

There are no known significant trends, demands, commitments, or uncertainties that will result in or that are reasonably likely to result in the Group's liquidity increasing or decreasing in a material way. There were no other significant elements of income or loss that did not arise from the Group's continuing operations.

PART II - FINANCIAL SOUNDNESS INDICATORS

The Subsidiaries

PGMC

PGMC was registered with the Philippine SEC on February 10, 1983. PGMC is a 99.98%-owned subsidiary of the Parent Company and is primarily engaged in the exploration, mining and exporting nickel ore located in the municipality of Claver, Surigao del Norte.

Seasonality

During the rainy season, mining operations at PGMC are suspended and there are no loading of ore onto ships. The Cagdianao Mine operates in certain months of the year, typically from April to October of each year, due to the weather conditions at the mine site. This seasonality results in quarter-to-quarter volatility in the operating results with more revenue being earned and more expenses being incurred in the second and third quarters compared to the first and fourth quarters.

Certification for Value-added tax (VAT) Zero-Rated Status

PGMC has been certified by BOI as a qualified enterprise for the purpose of VAT zero-rating of its transactions pursuant to the terms and conditions set forth by the BOI. On January 18, 2018, the BOI issued to PGMC the certification granting the renewal of PGMC's VAT zero-rated status. The certification is valid from January 1 up to December 31, 2018 unless sooner revoked by the BOI Governing Board.

SURIGAO INTEGRATED RESOURCES CORPORATION (SIRC)

SIRC is a 99.98%-owned subsidiary of the Parent Company through PGMC and was organized in July 1999 and duly registered with the Philippine SEC on July 16, 1999. Its primary purposes are to engage in the exploration and processing of minerals, petroleum and other mineral oils, to enter into financial and technical assistance agreements for the large scale exploration, development and utilization of mineral resources or otherwise engage in mining activities or enter into agreements as may be allowed by law.

SIRC is the holder of Mineral Production Sharing Agreement (MPSA) No. 007-92-X located in Cagdianao, Claver, Surigao del Norte. On November 16, 2015, SIRC applied for the renewal of its MPSA and was approved for another twenty-five (25) year term on June 21, 2016. The renewed MPSA is valid until February 14, 2042.

On June 15, 2016, SIRC and Cagdianao Lateritic Nickel Mining, Inc. (CLNMI) executed a Deed of Assignment wherein CLNMI has agreed to assign all of its rights, titles and interests on its Exploration Permit (EP) and mineral property. CLNMI has a pending application for EP with Application No. EPA-000101-XIII filed with the Mines and Geosciences Bureau (MGB) covering an area of about 927.9 hectares located at Cagdianao, Claver, Surigao del Norte. The Deed of Assignment was approved by the MGB on June 27, 2016.

PGMC-CNEP Shipping Services Corp. (PSSC)
On June 4, 2013, PGMC incorporated PSSC, its wholly owned subsidiary. It was registered with the Philippine SEC, primarily to conduct and carry on the business of inter-island shipping, including chartering, hiring, leasing, or otherwise acquiring tug and barge, self-propelled barges or landing craft tanks (LCT) or other ships or vessels, together with equipment, appurtenances and furniture therefor; and to employ the same in the conveyance and carriage of ores, minerals, goods, wares and merchandise of every kind and description.

PGMC International Limited (PIL)
On July 22, 2015, PIL was incorporated under the Companies Ordinance of Hong Kong, and is a limited company. It was established to conduct marketing, trading, sales and to facilitate relations with Chinese customers, to avail of offshore banking services such as loans, credit/discounting lines and other financing arrangements, and to do other services for PGMC.

PGMC, SIRC PSSC and PIL are hereinafter collectively referred to as PGMC Group. PGMC Group's registered address is the same as that of the Parent Company except for PIL which is registered at Unit 4101-02, 41/F, Office Tower, Convention Plaza, 1 Harbour Road Wanchai, Hongkong.

<u>The Associate</u>
Southeast Palawan Nickel Ventures, Inc. (SPNVI) is an associate of the Parent Company and was registered with SEC on July 11, 2014 primarily to engage to prospect, explore, locate, acquire, hold, work, develop, lease, operate and exploit mineral lands for nickel, chromite, copper, manganese, magnesite, silver, gold, and other precious and non-precious metals; to acquire and dispose of mining claims and rights, and to conduct and carry on the business of preparing, milling, concentrating, smelting, treating or preparing for market, and to market, sell at wholesale, exchange or otherwise deal in nickel, chromite, copper, manganese, magnesite, silver, gold and other mineral products. The registered office address of SPNVI is at 7th Floor, Corporate Business Center, 151 Paseo de Roxas cor. Arnaiz St., Makati City, Philippines.

On September 1, 2016, SPNVI and the the Parent Company entered into a Deed of Assignment, wherein the Parent Company assigned, transferred and conveyed in favor of SPNVI ₱0.3 million of its advances as payment for the subscription to the 300,000 unissued common shares out of 800,000 common shares of SPNVI with a par value of ₱1.00 per share.

As a result of the above Deed of Assignment, the Parent Company acquired 37.5% of the common shares with voting rights. The Group assessed that it has a significant influence over SPNVI since it directly holds more than twenty percent (20%) of the voting power of SPNVI.

As at March 31, 2018, SPNVI directly owns 99.76% of Ipilan Nickel Corporation (INC), a company registered with the Philippine SEC on July 22, 2005, for the primary purpose to explore, develop, mine, operate, produce, utilize, process and dispose of all the minerals and the products or by-products that may be produced, extracted, gathered, recovered, unearthed or found within the area of Sitio Ipilan, Mambalot, Municipality of Brooke's Point, Province of Palawan, consisting of 2,835 hectares and covered by MPSA No. 017-93-IV, Amended 2000 by the Government of the Republic of the Philippines through the Secretary of the Department of Environment and Natural Resources (DENR).

2. Basis of Preparation, Statement of Compliance and Basis of Consolidation

Basis of Preparation
The accompanying interim consolidated financial statements have been prepared on a historical cost basis, except for quoted AFS financial assets, which are carried at fair value. The consolidated financial statements are presented in Philippine peso, which is the Group's presentation currency under the Philippine Financial Reporting Standards (PFRS). Based on the economic substance of the underlying circumstances relevant to the Group, the functional currencies of the Parent Company and subsidiaries is Philippine peso, except for PIL whose functional currency is Hong Kong Dollar (HKD). All values are rounded to the nearest thousand (000), except number of shares, per share data and as indicated. Further, the unaudited interim consolidated financial statements do not include all the information and disclosure required in the annual consolidated financial statements, and should be read in conjunction with the audited Group's annual consolidated financial statements as at December 31, 2017.

Statement of Compliance
The accompanying consolidated financial statements of the Group have been prepared in compliance with PFRS.

Basis of Consolidation
The consolidated financial statements include the accounts of the Parent Company and its subsidiaries after eliminating significant intercompany balances and transactions. These subsidiaries, except PIL are all based in the Philippines and are duly registered with the Philippine SEC. The financial statements of the subsidiaries are prepared for the same reporting year as the Parent Company, using uniform and consistent accounting policies.

Changes in Accounting Policies and Disclosures
The accounting policies adopted are consistent with those of the previous financial year, except that the Group has adopted the following new accounting pronouncements starting January 1, 2018. Adoption of these pronouncements did not have any significant impact on the Group's financial position or performance unless otherwise indicated.

- *Amendments to PFRS 2, Share-based Payment, Classification and Measurement of Share-based Payment Transactions*
- *PFRS 9, Financial Instruments*
- *Amendments to PFRS 4, Insurance Contracts, Applying PFRS 9, Financial Instruments, with PFRS 4*
- *PFRS 15, Revenue from Contracts with Customers*
- *Amendments to PAS 28, Measuring an Associate or Joint Venture at Fair Value (Part of Annual Improvements to PFRSs 2014 - 2016 Cycle)*
- *Amendments to PAS 40, Investment Property, Transfers of Investment Property*
- *IFRIC 22, Foreign Currency Transactions and Advance Consideration*

Standards Issued but not yet Effective
Pronouncements issued but not yet effective are listed below. Unless otherwise indicated, the Group does not expect that the future adoption of the said pronouncements to have a significant impact on its consolidated financial statements. The Group intends to adopt the following pronouncements when they become effective.

Effective beginning on or after January 1, 2019

- Amendments to PFRS 9, *Prepayment Features with Negative Compensation*
  The amendments to PFRS 9 allow debt instruments with negative compensation prepayment features to be measured at amortized cost or fair value through other comprehensive income. An entity shall apply these amendments for annual reporting periods beginning on or after January 1, 2019. Earlier application is permitted. The amendments will not have any impact on the financial statements of the Group since it has no debt instruments with negative compensation prepayment.

- PFRS 16, *Leases*
  PFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under PAS 17, Leases. The standard includes two recognition exemptions for lessees – leases of 'low-value' assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of twelve (12) months or less). At the commencement date of a lease, a lessee will recognize a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessees

will be required to separately recognize the interest expense on the lease liability and the depreciation expense on the right-of-use asset.

Lessees will be also required to remeasure the lease liability upon the occurrence of certain events (e.g., a change in the lease term, a change in future lease payments resulting from a change in an index or rate used to determine those payments). The lessee will generally recognize the amount of the remeasurement of the lease liability as an adjustment to the right-of-use asset.

Lessor accounting under PFRS 16 is substantially unchanged from today's accounting under PAS 17. Lessors will continue to classify all leases using the same classification principle as in PAS 17 and distinguish between two types of leases: operating and finance leases.

PFRS 16 also requires lessees and lessors to make more extensive disclosures than under PAS 17. Early application is permitted, but not before an entity applies PFRS 15. A lessee can choose to apply the standard using either a full retrospective or a modified retrospective approach. The standard's transition provisions permit certain reliefs.

The Group is currently assessing the potential impact of adopting PFRS 16.

- Amendments to PAS 28, *Long-term Interests in Associates and Joint Ventures*
  The amendments to PAS 28 clarify that entities should account for long-term interests in an associate or joint venture to which the equity method is not applied using PFRS 9. An entity shall apply these amendments for annual reporting periods beginning on or after January 1, 2019. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group.

- Philippine Interpretation IFRIC-23, *Uncertainty over Income Tax Treatments*
  The interpretation addresses the accounting for income taxes when tax treatments involve uncertainty that affects the application of PAS 12 and does not apply to taxes or levies outside the scope of PAS 12, nor does it specifically include requirements relating to interest and penalties associated with uncertain tax treatments.

  The interpretation specifically addresses the following:

  - Whether an entity considers uncertain tax treatments separately;
  - The assumptions an entity makes about the examination of tax treatments by taxation authorities;
  - How an entity determines taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates; and
  - How an entity considers changes in facts and circumstances.

  An entity must determine whether to consider each uncertain tax treatment separately or together with one or more other uncertain tax treatments. The approach that better predicts the resolution of the uncertainty should be followed.

  The Group is currently assessing the potential impact of adopting this interpretation.

Deferred Effectivity

- Amendments to PFRS 10 and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*
  The amendments address the conflict between PFRS 10 and PAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that a full gain or loss is recognized when a transfer to an associate or joint venture involves a business as defined in PFRS 3, *Business Combinations*. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognized only to the extent of unrelated investors' interests in the associate or joint venture.

  On January 13, 2016, the FRSC deferred the original effective date of January 1, 2016 of the said amendments until the International Accounting Standards Board completes its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

3. Significant Accounting Judgments, Estimates and Assumptions

The preparation of the consolidated financial statements in accordance with PFRS requires the Group to make judgment, estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses and disclosure of contingent assets and contingent liabilities. Future events may occur which will cause the judgments and assumptions used in arriving at the estimates to change. The effects of any change in estimates are reflected in the consolidated financial statements as they become reasonably determinable.

Judgments, estimates and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcome can differ from these estimates.

Judgments

In the process of applying the Group's accounting policies, management has made the following judgments, apart from those involving estimations, which have the most significant effect on the amounts recognized in the consolidated financial statements. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Assessing Production Start Date

The Group assesses the stage of each mine development project to determine when a mine moves into the production stage. The criteria used to assess the start date of a mine are determined based on the unique nature of each mine development project. The Group considers various relevant criteria to assess when the mine is substantially complete, ready for its intended use and moves into the production phase.

Some of the criteria include, but are not limited to the following:

- The level of capital expenditure compared to construction or development cost estimates;
- Completion of a reasonable period of testing of the property and equipment;
- Ability to produce ore in saleable form; and
- Ability to sustain ongoing production of ore.

When a mine development project moves into the production stage, the capitalization of certain mine construction or development costs ceases and costs are either regarded as inventory or expensed, except for capitalizable costs related to mining asset additions or improvements or mineable reserve development. It is also at this point that depreciation or depletion commences.

Determining Functional Currency

Based on the economic substance of the underlying circumstances relevant to the Group, the functional currencies of the Group, except PIL, has been determined to be the Philippine peso. The functional currency of PIL has been determined to be the HK$. The Philippine peso and the HK$ are the currencies that most faithfully represents the economic substance of the Group's underlying transactions, events and conditions.

Assessing Existence of Significant Influence

In assessing whether significant influence still exists, the Parent Company considered not only its percentage ownership but other factors such as the board seat representations it has in the associate's governing body and its interchange of managerial personnel with the associate, among others. As at March 31, 2018, the Parent Company assessed that it has significant influence over SPNVI and has accounted for the investment as an associate.

Estimates and Assumptions

The key estimates and assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next reporting period are discussed below.

Estimating Ore Reserves

Ore reserves are estimates of the amount of ore that can be economically and legally extracted from the Group's mining properties. The Group estimates its ore reserves based on information compiled by appropriately qualified persons relating to the geological data on the size, depth and shape of the ore body, and requires complex geological judgments to interpret the data. The estimation of recoverable reserves is based upon factors such as estimates of foreign exchange rates, commodity prices, future capital requirements, and production costs along with geological assumptions and judgments made in estimating the size and grade of the ore body. Changes in the reserve or resource estimates may affect the carrying value of mine exploration costs, property and equipment, provision for mine rehabilitation and decommissioning, recognition of deferred tax assets, and depreciation and depletion charges. Any change in the reserve estimates as a result of latest available information is accounted for prospectively.

On July 1, 2016, there was a change in the ore reserves estimate used in calculating the depletion and amortization rates used for the depletion and amortization of mining properties and mining rights. The change was based on the latest Philippine Mining Reporting Code - Competent Person (PMRC-CP) Technical Report dated September 15, 2016 with an indicated ore reserves estimate of 25.6 million WMT for operating CAGAs 2 and 4 out of the total indicated ore reserve of 35.5 million WMT for CAGAs 1 to 5 as at June 30, 2016. For the period January 1 to June 30, 2016 and for the year ended December 31, 2015, the rates used were based on the latest JORC Report in February 2015 with an indicated ore reserves estimate of 20.3 million WMT for CAGAs 2 and 4 out of the total indicated ore reserve of 37.3 million WMT for CAGAs 1 to 5.

Effective July 1, 2017, there was a change in the ore reserves estimate used in calculating the depletion and amortization rates used for the depletion and amortization of mining properties and mining rights. The change was based on the latest PMRC-CP Technical Report dated October 15, 2017 (as of June 23, 2017 cut-off reserve) compared to the PMRC-CP Technical Report dated September 15, 2016 (as of June 30, 2016 cut-off reserve) with a proven and probable ore reserves estimate of 23.1 million WMT and 25.6 million WMT, respectively, for operating CAGAs 2 and 4 out of the total proven and probable reserves of 36.3 million WMT and 35.5 million WMT, respectively, for CAGAs 1 to 5.

Estimating Allowance for Impairment Losses on Trade and Other Receivables and Advances to Related Parties
The provision for impairment losses on trade and other receivables and advances to related parties is based on the Group's assessment of the collectibility of payments from customers, contractors, related parties and others. This assessment requires judgment regarding the outcome of disputes and the ability of each of the debtors to pay the amounts owed to the Group. The Group assesses individually the receivable based on factors that affect the collectibility of the receivables, such as the length of the relationship of the Group with the debtor, the historical payment behavior, a review of the age and status of its receivable, the probability of insolvency of the counterparty, as well as its significant financial difficulties.

In addition to specific allowance against individually significant loans and receivables, the Group also makes a collective impairment allowance against exposures which, although not specifically identified as requiring a specific allowance, have a greater risk of default than when originally granted. his collective allowance is based on any deterioration in the Group's assessment of the accounts since their inception. The Group's assessments take into consideration factors such as any deterioration in country risk, industry, and technological obsolescence, as well as identified structural weaknesses or deterioration in cash flows. The Group used specific impairment on its loans and receivables. The Group did not assess its loans and receivables for collective impairment due to the few counterparties which can be specifically identified.

There were no impairment losses recognized for the periods ended March 31, 2018 and 2017 on the trade and other receivables and advances to related parties.

Estimating Allowance for Impairment Losses on Prepayments and Other Current Assets and Other Noncurrent Assets
The Group provides allowance for impairment losses on prepayments and other current assets and other noncurrent assets when they can no longer be realized. The amounts and timing of recorded expenses for any period would differ if the Group made different judgments or utilized different estimates. An increase in allowance for impairment losses would increase recorded expenses and decrease prepayments and other current assets and other noncurrent assets.

Allowance for impairment losses on input VAT classified under "Other noncurrent assets" amounted to ₱19.5 million as at March 31, 2018 and December 31, 2017 (see Note 11). There were no impairment losses recognized for the periods ended March 31, 2018 and 2017.

Assessing Recoverability of Mining Rights and Mine Exploration Costs
The application of the Group's accounting policy for mining rights and mine exploration costs requires judgment in determining whether it is likely that future economic benefits are certain, which may be based on assumptions about future events or circumstances. Estimates and assumptions made may change if new information becomes available. If, after mining rights and mine exploration costs are capitalized, information becomes available suggesting that the recovery of expenditure is unlikely, the amount capitalized is written-off in the consolidated statement of comprehensive income in the period when the new information becomes available. An impairment loss is recognized when the carrying value of these assets do not exceed their fair value. The Group has no provision for impairment loss on mining rights and mine exploration costs for the periods ended March 31, 2018 and 2017.

Assessing Recoverability of Deferred Tax Assets
The Group reviews the carrying amounts of deferred tax assets at each end of the reporting period and reduces deferred tax assets to the extent that it is probable that sufficient future taxable income will be available against which these can be utilized. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and level of sufficient future taxable income together with future tax planning strategies. The Group has net deferred tax assets amounting to ₱169.1 million and ₱127.5 million as at March 31, 2018 and December 31, 2017, respectively (see Note 25).

Estimating Provision for Mine Rehabilitation and Decommissioning
Provision for mine rehabilitation and decommissioning pertains to the estimated decommissioning costs to be incurred in the future on the mined-out areas of the Group. The Group makes full provision for the future cost of rehabilitating mine sites and related production facilities on a discounted basis on the development of mines or installation of those facilities. These estimates are reviewed regularly to take into account any material changes to the assumptions. Significant estimates and assumptions are made in determining the provision for mine rehabilitation and decommissioning as there are numerous factors that will affect the provision. These factors include estimates of the extent and costs of rehabilitation activities, technological changes, regulatory changes, cost increases, and changes in discount rates. In addition, the expected timing of expenditure can also change, for example in response to changes in mineral reserves or production rates. Those uncertainties may result in future actual expenditure differing from the amounts currently provided. The provision at end of the reporting period represents management's best estimate of the present value of the future rehabilitation costs required. Changes to estimated future costs are recognized in the consolidated statement of financial position by adjusting the rehabilitation asset and liability.

Determining Fair Values of Financial Instruments
Where the fair values of financial assets and liabilities recorded in the consolidated statement of financial position cannot be derived from active markets, they are determined using internal valuation techniques using generally accepted market valuation models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimates are used in establishing fair values. These estimates may include considerations of liquidity, volatility and correlation. Any change in the fair value of financial assets and financial liabilities would directly affect net income.

Estimating Contingencies
The Group evaluates legal and administrative proceedings to which it is involved based on analysis of potential results. Management and its legal counsels do not believe that any current proceedings will have material adverse effects on its financial position and results of operations. It is possible, however, that future results of operations could be materially affected by changes in the estimates or in the effectiveness of strategies relating to these proceedings.

4. Cash

Amount in thousands	March 31, 2018 (Unaudited)	December 31, 2017 (Audited)
Cash on hand	₱813	₱798
Cash with banks	529,633	885,768
	₱530,446	₱886,566

Cash with banks earn interest at the respective bank deposit rates. Interest income earned on cash with banks amounted to ₱0.4 million and ₱0.2 million for the three months ended March 31, 2018 and 2017, respectively.

5. Trade and Other Receivables

Amount in thousands	March 31, 2018 (Unaudited)	December 31, 2017 (Audited)
Trade	₱226,164	₱463,698
Advances to:		
Contractors	79,707	79,707
Officers, employees and others	10,508	31,427
	316,379	574,832
Less allowance for impairment losses	226,164	226,164
	₱90,215	₱348,668

Trade receivables arising from shipment of nickel ore are non-interest-bearing and are generally collectible within thirty (30) to ninety (90) days.

Advances to contractors are advanced payment for contract hire fee. These advances will be offset against the contract hire billings upon completion of future ore loading to vessel shipments by the contractors.

The Group provides cash advances to its officers and employees for various business related expenses incurred which are subject for liquidation. Other advances include advances to third party companies which are collectible upon demand.

There was no provision for impairment losses for the periods ended March 31, 2018 and 2016.

6. Inventories - at cost

TCB

On May 17, 2017, the Group repaid the US$20.0 million loan extended by TCB on April 17, 2016.

On May 17, 2017, the Group was re-granted by TCB a one-year loan facility in the reduced amount of US$15.0 million for the same general corporate purposes, with the same terms and conditions.

The interest shall be payable quarterly in arrears. The interest rate for the loan is the aggregate of the reference rate plus spread of three point seventy five percent (3.75%) per annum. The reference rate is the applicable London Interbank Offered Rate (LIBOR) displayed on the Bloomberg and Reuters' page for the three (3)-month yield as of approximately 11:15 am on the interest rate setting date. In the event that the LIBOR will be replaced by a new benchmark as determined by the Banker's Association of the Philippines or the Banko Sentral ng Pilipinas, the new benchmark may be adopted as the new reference rate upon mutual agreement of the parties.

The other conditions of the agreement follow:

1) The Group shall maintain a waterfall account with TCB wherein all amounts collected by TCB from the buyers of nickel ore shall be deposited.
2) The security is of two (2) kinds and shall amount to an aggregate value, in any combination, at least equal or twice (2x) the amount or equivalent to US$30.0 million as follows:
   i. Accounts receivables from the PGMC's customers.
   ii. Import letters of credit (LC) issued in favor of PGMC by its customers and clients.
   iii. Demand Deposit Account which shall be opened and set-up by the collateral provider or pledger acceptable to TCB.
   iv. Guarantee issued by any individual, juridical person or any combination thereof acceptable to TCB.
3) TCB is irrevocably appointed as the collecting agent for the account receivables from the Group's export orders of nickel ore and as a collecting and advising bank for the import LC opened by the buyers of the nickel ore of the Group. The amount collected shall be deposited in the waterfall account of the Group.
4) If the Group fails to make payment when due of any sum (whether at the stated maturity, by acceleration or otherwise), the Group shall pay penalty on such past due and unpaid amount/s at the rate of eighteen percent (18%) per annum, in addition to the interest rate from due date until the date of payment in full. The penalty shall be payable from time to time and upon demand by the bank.
5) A DSRA shall be opened by the Group which shall have in deposit an amount of US$3.75 million. The amount in said account maybe reduced proportionately as the Group pays the principal and its interest by express agreement of the parties.

The Group has complied with the terms of the loan as at March 31, 2018 and December 31, 2017.

BDO

The Group has an existing US$20.0 million Export Packing Credit Line for working capital purposes. There was no drawn amount for the period ended March 31, 2018 and all drawn amounts for the year ended December 31, 2017 were fully paid as at December 31, 2017.

The Group also entered into several service vehicle loans with BDO with a three (3)-year term at an interest rate ranging from seven percent (7%) to nine percent (9%) per annum.

The Group has complied with the terms of the loan as at March 31, 2018 and December 31, 2017.

26. Operating Segment Information

Operating segments are components of the Group that engage in business activities from which they may earn revenues and incur expenses, whose operating results are regularly reviewed by the Group's chief operating decision maker (the BOD) to make decisions about how resources are to be allocated to the segment and assess their performances, and for which discrete financial information is available.

The Group's operating businesses are organized and managed separately according to the nature of the products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets.

The Group conducts majority of its business activities in the following areas:

- The mining segment is engaged in the exploration, mining and exporting of nickel saprolite and limonite ore; and
- The services segment is engaged in the chartering out of LCTs by PCSSC to PGMC.

The Group's core business is the sale of nickel ore to external customers which accounted for the Group's total revenue.

Accordingly, the Group operates mainly in one reportable business and two geographical segments which is the Philippines and Hong Kong. Noncurrent assets of the Group comprising property and equipment, finance lease receivable, mining rights, mine exploration costs and other noncurrent assets are located in the Philippines and Hong Kong.

There were no revenues from external customers for the three months period ended March 31, 2018 and 2017, respectively.
